IN THE CLAIMS

Amend claim 1 as follows:

cm 1. (AMENDED) A support means for supporting a support
platform from a fixed base whereby the support platform is
movable between a first position at least partially below the
fixed base and a second position in front of the fixed base, said
support means comprising a first element adapted to be mounted
to the support platform, a second element adapted to be affixed
to said fixed base, a pair of linkage elements each pivotally
fixed at one end to said first element at spaced intervals on
said first element and each pivotally mounted at the other end
to said second element at spaced locations spaced on said second
element [to enable] for movement of the support platform between
the first and second positions [whereby] and throughout such
movement the attitude of said support platform remains
